December 14, 2020

Dear Parents/Guardians;

On December 7, the Interlake School Division distributed a letter outlining ISD's response to the Manitoba provincial announcement regarding remote learning. Today's letter is to outline how this will look at Warren Collegiate.

- Students in Grades 7-12 will move to provincially mandated remote learning for a two-week period from January 4-15. Students will learn from home.
 - Students will be required to participate every day in learning and assessment.
 - Students will be expected to maintain their present class schedule every day. Students are to log on to their class TEAM for the start of class. Some days this may be for a lesson and other days just for a quick check in. Log on information is recorded by the TEAMS platform.
- In-class learning will be available for the period of January 4-15 for Grade 7-12 students with special needs that must be accommodated in the school.
 - A small group of students whose needs cannot be met through remote learning have been requested to come to school. These families have all been contacted.
- Technology Considerations: We have surveyed our students regarding their hardware and internet accessibility.
 - There is a process for students to borrow laptops from the school division. Forms will be sent home with students who identified they would like to borrow a laptop at this time. Please return signed forms by Dec. 16. Forms must be signed before the laptop is handed out.
 - Students will be able to sign up for 1 hour increments in the computer lab to access the internet. Please call the office if you would like to book a time in the lab. This time could be useful to download materials off of TEAMS onto a USB if you have no internet or poor internet. Transportation is not provided for these internet sessions.

If you have any questions please do not hesitate to talk to Mr. Oliver or myself through our contact info above.

Take Care,

Mrs. Laura Perrella
