WARREN COLLEGIATE STUDENT CODE OF CONDUCT

2026-2027

Students and staff at WCI are expected to act in a responsible, respectful and cooperative manner. We believe that all students and staff deserve a safe, caring and positive school environment in which to learn, work and socialize.

Our Code of Conduct, a general guide for student behaviour, is reflective of both provincial legislation (Manitoba's Safe and Caring Code of Conduct 2014) and the Interlake School Division Behaviour Management Model and Code of Conduct (found on ISD website).

WCI's MISSION STATEMENT

"To enable students to discover and develop their varied potentials and empower them to meet a multitude of diverse experiences by providing a safe, healthy, respectful and engaging environment."

Covid 19 protocols: up to date info [COVID-19 Information for Manitobans](#)

Students and Staff Exhibiting Symptoms at School:

The student exhibiting symptoms will be isolated in our AFM office and provided with a medical mask to be worn. Parents or caregivers will be notified to come and pick up their child immediately. Schools will require each family to have a plan in place for urgent student pick-up.

Communicating the Importance of Hand Hygiene, Symptom Monitoring, and Other Public Health Measures:

- Students will need to self-screen at home before going to school. Parents and caregivers are responsible for their own child's self-screening. An up-to-date list of symptoms can be found online at government's *About COVID-19* page. Screening protocols must be in place for all people entering schools and screening information will be posted at all entrances and provided to families. **If students are ill, they must stay at home.**

Appendix B VTRA - Fair Notice to Parents

Interlake School Division

Student Violence Threat Risk Assessment (VTRA) - Fair Notice to Families

The Interlake School Division is committed to creating and maintaining school environments in which students, staff, parents/guardians/caregivers, and others feel safe. Schools cannot ignore threats of violence.

What is a threat?

A threat is an expression of intent to do harm or act out violently against someone or something. Threats may be verbal, written, drawn, posted on the internet, or made by gesture.

Duty to report

To keep school communities safe and caring, staff, parents/guardians/caregivers, students and community members must report all threat-related behaviours to the school principal.

What is the purpose of a student threat assessment?

The purposes of a student threat assessment are:

- To ensure and promote the emotional and physical safety of students, staff, parents, the student making the threat, and others.
- To ensure a full understanding of the context of the threat.
- To understand the factors contributing to the person of concern's (threat maker's) behaviour.
- To be proactive in developing an intervention plan that addresses the emotional and physical safety of the person of concern.
- To promote the emotional and physical safety of all.

What behaviours warrant a Student Violence Threat Risk Assessment to be initiated?

A student threat assessment will be initiated for behaviours including, but not limited to:

- Verbal/written threats to harm/kill others ("clear, direct and plausible")
- Threats made via social media to harm, kill or cause serious property damage
- Serious violence or violence with intent to harm and kill
- Indicators of suicidal ideation as it related to fluidity (homicidal/suicidal)
- Weapon possession (including replicas)
- Bomb threats (or possession/detonation of devices)
- Hate incidents motivated by factors including but not limited to: race, culture, religion, and/or sexual orientation
- Sexual intimidation, sextortion, extortion or assault
- Domestic, interpersonal, relational violence
- Gang-related intimidation and violence
- Fire setting (contextual)

What Do Parents and Students Need to Know:

- Any threats must be reported to the school principal.
- Investigation may involve divisional staff, police, and other community agencies.
- Investigation may involve locker or property searches.
- Interviews will be held with the person of concern and other students or adults who may have information about the threat.
- Parents/guardians of the students who are directly involved will be notified.
- Threatening behaviour may result in disciplinary action.
- An intervention plan may be developed for the student making the threat and support plan developed for any individuals targeted by threats.
- It is important for all parties to engage in the VTRA process. If, for some reason, the threat maker or their parent/guardian are reluctant to participate in the process, the process will continue to ensure a safe and caring learning environment.

Collection Notice

The school division is subject to personal information privacy laws and will undertake the collection of this information in compliance with the requirements of such laws, including by limiting collection to information that is relevant and necessary to address a risk or threat and by ensuring that information is collected from publicly available open source social media sites. Interlake School Division will not collect information as part of a threat assessment unless there is a reason to believe that a risk exists. Information collected as part of a threat assessment may be provided to law enforcement authorities in appropriate circumstances.

For more information regarding the threat/risk assessment process please visit the Centre for Trauma Informed Practices website at: www.ctipractices.com

STUDENT RESPONSIBILITIES

It is expected that students will

- attend school and classes
- be punctual
- be respectful
- complete assignments and other work required by teachers
- maintain one's best possible academic achievement
- follow the rules and expectations developed within each classroom
- conduct themselves with moral integrity
- respect the rights and values of others
- conduct themselves in a manner that shows academic and social responsibility, self-discipline and safety of themselves and others
- comply with school and division's expectations, rules and policies
- treat with respect school property and the property of others who are employed at or attending the school
- assume responsibility if they destroy, damage, lose or convert by an intention or negligent act, school or divisional property
- (please see procedure review regarding cell phones on page 7)

Bullying is an unacceptable behaviour that harms many of our school beliefs:

CYBERBULLYING

This refers to willful and repeated actions by one or more person(s) through the use of electronic information and devices with the intent to hurt, harm, embarrass and humiliate a person(s) through the use of text, photos and/or video. Examples of cyberbullying include

- i) sending hurtful, cruel messages or comments;
- ii) spreading gossip via social media;
- iii) creating websites that have stories, cartoons, pictures, jokes ridiculing others;
- iv) tricking a person to reveal sensitive personal information, then forwarding it to others;
and
- v) posting a student(s) picture without his/her/their permission.

This kind of bullying not only makes the victim feel unsafe, but it spreads quickly and creates a very unhealthy school environment. When a student or students feel harassed, threatened, scared or intimidated, then we as a school also feel that way. It will not be tolerated.

ATTENDANCE

Since participation is a critical aspect of the process of education, a substantial portion of the student's grade will be based on his/her involvement in course activities. Regular attendance is important and directly related to the success of a student in school. Students are expected to be punctual and expected to attend all classes. If a student must be absent from school, the parent/guardian must inform the school of the reason for the absence by phone, email, or a note. An absence not confirmed by a parent/guardian is considered an unexcused absence and viewed very seriously. Daily automated phone calls are made to homes when students have been absent and the school has not been informed. Upon receiving this attendance call, parents/guardians are expected to contact the school to explain the absence.

Students absent from a class are responsible for all missed work. Teachers have clearly outlined their homework expectations in regards to missed classes. Attendance is taken in each class and entered into our computerized attendance system. School sponsored activities (field trips, extra-curricular events) resulting in a student missing classes are not considered absences. Any student who misses 30 or more minutes of a class will be marked as absent. If any student has to leave the school, other than at noon hour, he/she must sign out at the office. If a student becomes ill at school and cannot attend classes, he/she must inform the office, and a parent/guardian will be contacted.

Excessive absenteeism, twelve absences in a full credit course and six in a half course, could result in a loss of credit. Before a student is removed from a course, the student will have had discussions with his/her teacher and administration in order to understand the student's situation and reasons for not attending school. Special conditions may be put in place in order for the student to continue in the class. Chronic absenteeism of students may also necessitate the involvement of our guidance counselors and our school social worker. Communication between

home and school is important and parents will be informed of attendance issues in numerous ways, e.g., teacher and administration telephone calls, Synervoice, emails, and/or attendance letters.

In Manitoba, attendance is governed under the Public Schools Act, the Education Administration Act, as well as school and division policies.

- i) Right to Attend (Manitoba Schools Act Part XIV)
Students have the right to attend school until they receive a graduation diploma, or until the last day of June in the year they turn 21 years of age.
- ii) Compulsory School Age (Manitoba Public Schools Act)
Children are required to attend school until they are 18 years of age. Parents or legal guardians are responsible for sending his/her children to school.
- iii) Offence if 16 years of age or older (Manitoba Public Schools Act Section 259.1(3))
A child 16 years of age or older who is required to attend school under this section and who refuses to attend, or who is habitually absent from school, is guilty of an offense and is liable on summary conviction to a fine of not more than \$200.
- iv) Pupils over 18 years of age (Manitoba Public Schools Act)
Notwithstanding that a pupil is over compulsory school age, he/she is subject to the rules of the school board in matters pertaining to school attendance

Attendance and Participation: Is student attendance and participation at school mandatory?

School attendance is mandatory for children aged 7 to 18 in Manitoba. All students are expected to participate fully in learning, even if/when remote learning is required.

ATTIRE (SCHOOL DRESS)

Students are expected to dress appropriately and present a neat, clean appearance at all times. "Beach type" clothing is not considered appropriate for school. Clothing that is unsafe, immodest, or includes inappropriate language or messages are not acceptable school wear. **Our school reserves the right to require change in any manner of dress that is considered inappropriate for school wear.** Attention to respectful dress sets a tone within a school that is seriously focused on learning.

8. Students suspended from school and/or their bus will lose all ridership privileges (i.e. Technology programming, offsite activities and programs, extra-curricular activities, etc.).

9. The Bus Driver has the authority to assign seats.

10. Students will not get on or off the bus except at their designated stop unless parents/legal guardians have communicated with the school and the bus driver.

11. Extra students may only be transported at the discretion of the school and the Bus Driver and will only be transported with prior approval by way of a note from a parent/legal guardian. 12. Video/audio surveillance may be used to ensure security and safety of individuals and property.

13. Schools shall make bus drivers aware of any special accommodations a student may need so that all students can ride the bus in a safe manner. Bus Drivers will follow any Individualized Transportation Plans (ITP) provided for students.

14. The Transportation Department will provide its best effort to ensure that a student's one-way travel time to his or her designated school is no longer than one (1) hour. 15. Carry on items must be transported safely and will only be allowed with the permission of the Bus Driver. Students will be allowed to transport equipment to and from school by bus providing:

- a) The equipment is necessary for school-related programs and/or extra-curricular activities.
- b) The Bus Driver can store these items safely.
- c) There is adequate space available for the items.
- d) The student has checked with the Bus Driver prior to bringing the items on the bus.
